

Product Fact Sheet

4-Port Print Server

Connections for your Computer

1 510 222 0131

KEYSPAN

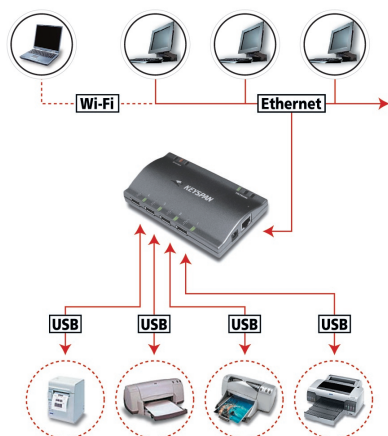

Part #: PS-4A MSRP: \$129.99

A Better Way to Share USB Printers!

Most print servers only transmit data in one direction (from the PC to the printer). The 4-Port Print Server is the first print server under \$100 to provide bi-directional communication with the printer. This allows you to use utilities that monitor ink and paper status -- helping to ensure that every print job turns out perfect.

Features

- High Capacity: Connect as many as 4 USB printers
- Bi-Directional: Transmits print jobs to printer. Delivers ink/paper status messages back to the PC/Mac
- Convenient: Print via Ethernet or WiFi
- Versatile: For use with inkjet printers, laser printers, plotters, photo printers and label printers
- High Performance: Supports simultaneous use of attached printers.

Connectivity to USB Printers

- 4 USB 2.0 Full-Speed ports (12 Mbps)
- Full 500mA power provided to each port

Connectivity to Network

- RJ45 Ethernet connector
- 10/100 autosensing
- IP addressing : Static/DHCP/Rendezvous

Requirements

- Macintosh: Mac OS X v10.3 or v10.4
- Windows: Windows 2000, Windows XP or greater
